

CFMoto - CFMoto UTV Terracross CF625-3 Z6. Owner_s Manual.Russian

WARNING!

Violation of operating rules of a vehicle can lead to severe injuries or death!

When using:

- * Do not start operation without reading and studying this manual.
- * Do not carry more than one passenger.
- * Do not overcome slopes steeper than 15°.
- * Do not lean out of the cabin while moving.
- * Do not operate the vehicle on public roads.
- * Be especially careful when driving on paved surfaces, as driving on them significantly impairs the ability to control and steer the vehicle.
- * Do not use accessories that are not approved by the manufacturer or dealer.

ALWAYS:

- * Reduce speed and be especially careful when driving with a passenger.
- * Be careful, do not turn or brake too sharply when moving backwards.
- * Make sure the passenger is familiar with and complies with safety requirements.
- * Ensure that branches and other obstacles do not enter the cab while moving.
- * Always use a motorcycle helmet and protective accessories in clothing and footwear when riding.

Never use drugs or alcohol.

Store and study the user manual, follow all the instructions, prescriptions and warnings set forth in it. In case of loss of the manual, contact an official dealer for a new copy.

Study, understand and follow the safety instructions and prescriptions set forth in this manual and placed on information plates on the vehicle body. Ignoring these recommendations can lead to serious injuries or even death.

WARNING!

WARNING!

Exhaust gases contain substances that lead to headaches, nausea, loss of consciousness and are deadly.

INTRODUCTION

Utility all-terrain vehicles

Motorcycles

All-terrain vehicles can be successfully used both for recreation and entertainment, and as transport for personnel of patrol services or hunters.

BL Motorcycles Ltd

Professional Workshop Manual - English Translation

CFMOTO, specializing in the development of liquid-cooled engines, is one of their main manufacturers and suppliers in China. Compared with air-cooled engines of the same volume, liquid-cooled engines have more stable thermal characteristics, are more powerful and economical, and also have a longer service life.

In order for the operation of the vehicle to be safe and enjoyable, please follow the instructions and prescriptions in this manual. It outlines the minimum requirements, compliance with which will keep the equipment in good condition. All information regarding the repair of CFMOTO equipment is available in the instructions provided to service centers of official dealers.

Our official dealers are specialists in CFMOTO products and are ready to satisfy all your claims and service your equipment in the best possible way.

Products are constantly being improved in design and quality, therefore the characteristics and descriptions given in this manual may slightly differ from the actual design of your purchased vehicle. The data in this manual should only be used as reference information.
