

## **Malaguti - Malaguti\_Madison\_125-150\_Service\_Manual**

Okay, here's the translation of the motorcycle manual text, maintaining technical specifications where applicable and avoiding markdown like asterisks for bolding.

### MALAGUTI MADISON 125/150

#### PREFACE

This workshop manual covers the main electrical/mechanical checks, essential controls, and assembly of components supplied separately for the delivery of the new factory motorcycle (the sequence of operations is not binding).

It is very important to strictly adhere to what is described. Superficially executed or even omitted interventions can cause personal injury to the buyer, damage to the motorcycle, etc., or, at the very least, produce unpleasant disputes.

"Tempari" (intervention times for operations during the warranty period).

### MADISON 125-150

#### NOTES FOR EASY CONSULTATION

- A. GETTING TO KNOW THE MOTOR-BIKE
- B. MECHANICAL ADJUSTMENTS
- C. FAIRING REMOVAL
