COPYRIGHT HYOSUNG MOTOR & MACHINERY INC.

### **FOREWORD**

This manual is an essential part of your vehicle. Please read it carefully. It contains important information on safety, operation and maintenance. It is especially important that this manual remain with the vehicle at the time of resale. The next owner will need this information also.

Your HYOSUNG AATTVV is built for use by children, but this owners manual is written for the adults who will be supervising the children. HYOSUNG strongly recommends, therefore, that you review this entire manual with your child and carefully explain the instructions, requirements, and warnings it contains so that your child can understand them.

### **WARNING**

The personal safety of the rider or bystanders may be involved. Disregarding this information could result in personal injury.

These instructions point out special service procedures or precautions that must be followed to avoid damaging the machine.

### **CAUTION**

### **IMPORTANT NOTICE TO**

# BL Motorcycles Ltd

*Professional Workshop Manual - English Translation*

## PARENTS

### WARNING

Even though the AATTVV has four wheels, it can tip over in any direction. Improper turning techniques, traversing hills, accelerating on hills, and turning on hills can all lead to vehicle tip over.

Learn proper riding techniques and avoid riding situations which can lead to tip over accidents.

The AATTVV and other all-terrain vehicles (ATVs) have unique handling characteristics. ATVs handle differently than motorcycles.

Although ATVs have four(or three) wheels, they handle differently than automobiles, too.

ATVs require special riding techniques suited to their handling characteristics, so be sure that all riders of the AATTVV practice and master the riding techniques described in this owners manual (Starting on page 15)

### WARNING

You must take special precautions to reduce the chance of accidents and injuries resulting from operation of this vehicle. Some of the important safety precautions you should take are :

Supervise operation of the AATTVV AT ALL TIMES. Constant supervision is necessary so you can observe that the operator is riding safely.

Never permit children under age 6 to operate the AATTVV. These children, as well as some children age 6 and older, may not be able to operate this vehicle safely due to physical or mental limitations.

Parents should carefully observe their childs first use of the vehicle. Further use should be permitted only if the parent can determine that the child has the physical and mental capabilities necessary to operate the vehicle safely.

Before first use of the AATTVV, read this owners manual carefully to become familiar with the AATTVVs features, and safety and maintenance requirements. Review all instructions, requirements and warnings with the riders. Keep the owners manual in the owners manual storage compartment located under the seat.

Before the riders first use of the AATTVV, make sure that he/she is familiar with the location and operation of all controls, and has been instructed in the proper operation of the vehicle.

For first use of the AATTVV, find a level, open area for the rider to use to become familiar with the operation of controls and the operating and handling characteristics of the AATTVV.

### WARNING

Proper parental supervision and instruction are necessary for safe and proper operation of this AATTVV by young riders.

It is important that both you and your child understand and observe the restrictions listed on the fender label of the AATTVV.

Read this owners manual carefully and review its contents fully with your child. It is YOUR RESPONSIBILITY to make sure that your AATTVV is properly and safely ridden and maintained.

3

Before each use, perform daily inspections with the rider. Specific items to check are listed in the INSPECTION

# **BL Motorcycles Ltd**

*Professional Workshop Manual - English Translation*

BEFORE RIDING section on page 15 of this owners manual.

Make sure the rider wears a helmet, eye protection, and protective clothing (gloves, leather or heavy cloth pants, long sleeved shirt or jacket, boots).

Beware of hazardous situations. Instruct the rider to do likewise.

Do not permit the AATTVV to be used on public roads AT ANY TIME.

This vehicle is designed and manufactured for use ONLY off public roads. It is not subject to Federal Motor Vehicle Safety Standards as it is not equipped or approved for operation on public streets, roads, or highways at any time.

Do not permit the AATTVV to be operated on any paved surfaces. The vehicle can be more difficult to control when it is operated on pavement.

Permit use only by a single rider. This vehicle is designed for use only by a single rider. Extra seat space is provided so the rider can change his/her body position to maneuver the vehicle. This space should never be used to carry a passenger.

Do not permit anyone to operate the AATTVV while under the influence of alcohol or other drugs.

Make sure the combined weight of the rider, protective gear and any accessories or cargo does not exceed the 35kg(77lbs) weight limit. Exceeding this weight limit may result in injury caused by damage to the vehicle or altered handling characteristics.

Observe periodic maintenance requirements - your authorized HYOSUNG dealer is trained and equipped to perform this service.

Never permit vehicle refueling by anyone other than an adult.

Drain gasoline from the fuel tank and carburetor prior to transporting the AATTVV.

Caution the rider and others near the AATTVV not to get close to or touch any moving parts or any heated areas such as the engine and exhaust system.

Do not make any modifications to the AATTVV. Modifications may make the vehicle unsafe or illegal.

Do not allow the AATTVV to be ridden at night. This vehicle is not equipped with a headlight. Unseen obstacles could cause an accident resulting in injury to the rider.

The frame and/or engine serial numbers are used to title the vehicle. They are also used to assist your dealer when ordering parts or referring to special service information.

# **BL Motorcycles Ltd**

*Professional Workshop Manual - English Translation*

Gasoline used should be graded 85 ~ 95 octane or higher. An unleaded type gasoline is recommended. If engine pinging is experienced, substitute another brand as there are differences between brands.

The frame number is stamped on the front frame member as shown in the illustration.

The engine serial number is stamped on the left side of the crankcase assembly.

Please write down the serial numbers here for your future reference.

Frame No.:

Engine No.:

FUEL

Use HYOSUNG HYPOL OIL HS.

If they are not available, use a good quality TWO- STROKE engine oil.

Use a good quality SAE 10W/40 multi-grade motor oil.
