PRESENTATION

Welcome to the Husqvarna motorcycling Family! Your new Husqvarna motorcycle is designed and manufactured to be the finest in its field. The instructions in this book have been prepared to provide a simple and understandable guide for your motorcycles operation and care. Follow the instructions carefully to obtain maximum performance and your personal motorcycling pleasure. Your owners manual contains instructions for owner care and maintenance. Information covering repair of major units such as engine, transmission, etc. is provided in the Husqvarna Service Manual.

The information concerning details or main work of repair or maintenance are described in the Husqvarna Service Manual. This manual is available upon request by stating the code number set on page 218. Work of this kind requires the attention of a skilled mechanic and the use of special tools and equipment. Your Husqvarna dealer has the facilities, experience and original parts necessary to properly render this valuable service.

This Owners Manual and the Purchase Registration Booklet are parts and parcels of the motorcycle, hence, they have to remain with the motorcycle even when sold to another user.

This motorcycle uses components designed thanks to systems and state of the art technologies which are thereafter tested in competition. In competition motorcycles, every detail is verified after each race in order to always guarantee better performance. For correct functioning of the vehicle, it is necessary to follow the maintenance and control table found on page 238.

BL Motorcycles Ltd

Professional Workshop Manual - English Translation

It contains the instructions for carrying out the necessary maintenance operations. Information regarding repairs or more specific or major maintenance is contained in the Husqvarna Service Manual which can be requested with the code number shown on page 218. Interventions of this type require the work of expert mechanics and the use of special equipment. Your Husqvarna dealer has original spare parts, experience and all the equipment necessary to provide you with excellent service. Finally, remember that the User and Maintenance Manual and the Sales Registration Booklet must be considered integral parts of the motorcycle and as such remain attached to it even in case of resale. This motorcycle uses components designed and built thanks to advanced systems and technologies tested in competitions. In competition motorcycles, every detail is checked after each race in order to always guarantee the best performance. For the correct functioning of the motorcycle it is necessary to follow the control and maintenance table on page 238.

INTRODUCTION

A welcome to the Husqvarna motorcycle family! Your new Husqvarna motorcycle has been designed and manufactured to be the best in its class. The instructions in this manual have been prepared to give you a simple and clear guide to motorcycle maintenance. If you follow the instructions in this manual exactly, you will achieve the best performance with the motorcycle. In this manual you will find instructions for the necessary work steps for maintenance. Instructions for repairs and maintenance of a special nature or of larger dimensions are contained in the Husqvarna Repair Manual. The information regarding more specific repairs or maintenance, or repairs or maintenance of a larger extent, are contained in the Husqvarna Service Operating Instructions, which can be requested with the code numbers indicated on page 218. Interventions of this type require the use of experienced workers as well as appropriate equipment. Your Husqvarna dealer has the original spare parts, the experience and all the necessary equipment to serve you best.

FINALLY REMEMBER THAT THE OPERATING INSTRUCTIONS "

AND THE " PURCHASE-REGISTRATION BOOKLET" MUST BE CONSIDERED INTEGRAL

BIRTHS OF THE MOTORCYCLE AND

THEREFORE THEY MUST ALWAYS ACCOMPANY THE VEHICLE,

EVEN WHEN SOLD.

This motorcycle assembles forming it

were drawn and it were realised

thanks to systems and technologies of

Avantgarde and that they were tried in the competitions. In order always to be able to guarantee the best performances, in this type of motorcycles every particular one it is controlled after every competition. For the correct working of the motorcycle he is necessary to follow the notices that are on the table of control and maintenance (to page 239 see).
