poorly ventilated rooms!

Thank you for choosing and purchasing a CF625-X6EFI ATV (quad bike) manufactured by CFMOTO!

Welcome to the global family of owners of our products!

We are proud to present a line of equipment for multipurpose use and active recreation:

- ATVs (ATV)
- Utility ATVs (UTV and SSV) · Motorcycles
- Scooters

This equipment can be successfully used both for recreation and entertainment, and for economic purposes. The ATV is an excellent assistant for patrol service personnel, fishermen or hunters.

CFMOTO, specializing in the development of liquid-cooled engines, is one of the main manufacturers and suppliers in China.

Compared to air-cooled engines of the same volume, engines with liquid cooling has more stable thermal characteristics, is more powerful and economical, and also has a longer service life.

In order for the operation of the vehicle to be safe and enjoyable, please follow the instructions and regulations contained in this Manual. It outlines the minimum requirements, compliance with which will maintain the equipment in good condition. All information regarding the repair of CFMOTO equipment is contained in the instructions supplied to the service centers of official dealers. Our official dealers are experts in CFMOTO products and are ready to satisfy all your claims and service your equipment in the best possible way.

Products are constantly being improved in design and quality, therefore, the characteristics and descriptions given in this Manual may slightly differ from the actual design of the vehicle you purchased. The data in this Manual should only be used as reference information.

Owner's safety

WARNING

Failure to comply with the warnings contained in this Manual may result in serious injury or death. An ATV is not a toy and can be dangerous. Operating this vehicle has features compared to driving a motorcycle or car. If proper preventive measures are not taken, a collision or rollover can occur even during normal maneuvers, such as turning, driving on slopes, or overcoming other obstacles. Before operating an ATV, read and study this Manual and all warnings.

Age restrictions

The vehicle is intended for operation ONLY BY ADULTS. Persons under 16 years of age are not allowed to operate the vehicle.

Study the vehicle

As the owner of the vehicle, you are responsible for your own safety, the safety of others and the protection of the environment. Read and study the User Manual, which contains valuable information about all the basic properties of the vehicle and methods of its safe operation.
