covering repair of major units such as engine, transmission, etc. is provided in the Husqvarna Service Manual. The information concerning details or main work of repair or maintenance are described in the Husqvarna Service Manual. This manual is available upon request by stating the code number set on page 258. Work of this kind requires the attention of a skilled mechanic and the use of special tools and equipment. Your Husqvarna dealer has the facilities, experience and original parts necessary to properly render this valuable service. This Owners Manual and the Purchase Registration Booklet are parts and parcels of the motorcycle, hence, they have to remain with the motorcycle even when sold to another user. This motorcycle uses components designed thanks to systems and state of the art technologies which are thereafter tested in competition. In competition motorcycles, every detail is verified after each race in order to always guarantee better performance. For correct functioning of the vehicle, it is necessary to follow the maintenance and control table found on page 278.
