©COPYRIGHT HYOSUNG MOTORS & MACHINERY INC.FOREWORD

THANK YOU for choosing Hyosung motorcycle. We at Hyosung have designed, tested and produced this motorcycle using the most modern technology available to provide you with much happy, enjoyable, safe riding. Motorcycling is one of the most exhilarating sports and insure your riding enjoyment, you should become thoroughly familiar with the information presented in this Owner's Manual before riding the motorcycle.

The proper care and maintenance that your motorcycle requires are outlined in this manual. By following these instructions explicitly you will insure a long trouble-free operating life for your motorcycle. Your Hyosung dealer has experienced technicians that are trained to provide your machine with the best possible service with the right tools and equipment.

3 IMPORTANT

BREAK-IN INFORMATION FOR YOUR MOTORCYCLE

The first 1,600km (1,000miles) are the most important in the life of your motorcycle. Proper break-in operation during this time will help ensure maximum life and performance from your new motorcycle.

Hyosung parts are manufactured of high quality materials, and manufactured parts are finished to close tolerances. Proper break-in operation allows the machined surfaces to polish each other and mate smoothly.

Motorcycle reliability and performance depend on special care and restraint exercise during the break-in period. It is especially important that you avoid operating the engine in a manner which could expose the engine parts to excessive heat.

Please refer to the BREAK-IN section for specific break-in recommendations.

WARNING/CAUTION/NOTE
Please read this manual and follow its instructions carefully. To emphasize special information the words **WARNING , CAUTION** and **NOTE** .

NOTE

This provides special information to make maintenance easier or important instructions clearer. These instructions point out special service procedures or precautions that must be followed to avoid damaging the machine. **CAUTION** The personal safety of the rider may be involved. Disregarding this information could result in injury to the rider.

4 Noise Control System (muffler assembly)

TAMPERING WITH NOISE CONTROL SYSTEM PROHIBITED

Owners are warned that the law may prohibit :

(a) The removal or rendering inoperative by any person other than for the purpose of maintenance, repair or

BL Motorcycles Ltd

Professional Workshop Manual - English Translation

replacement, of any device or element of design incorporated into any new vehicle for the purpose of noise control prior to its any sale or delivery to the ultimate purchaser or while it is in use ; and

(b) The use of the vehicle after such device or element of design has been removed or rendered inoperative by any person.

MAINTENANCE:

The exhaust system of this motorcycle requires no periodic maintenance. The engine should be adjusted to the manufacturer's specifications and the spark plug should be kept in good condition. Running the engine with incorrectly operating spark plug or misadjusted carburetor may cause permanent damage to the catalyst and to the noise control system.

WARNING

WARNING CONSUMER INFORMATION

SAFE RIDING RECOMMENDATION FOR MOTORCYCLE RIDERS

6 The is equipped with the side stand ignition interlock system.

If the transmission is in neutral or side stand up, you can only start the engine with pulling in the clutch lever. This side stand ignition interlock system prevents the motorcycle from being started with side stand down. Make sure that the side stand ignition interlock system is working properly before riding.

WARNING Do not run the engine indoors or where there is little or no ventilation. Exhaust gases contain carbon monoxide, a potentially lethal gas that is colorless and odorless.

Never leave the motorcycle running while unattended, even for a short time.

WARNING This motorcycle always come on the head lamp and tail lamp when starting engine.

CAUTION While operating the , the rider should keep both feet on the footrests at all times, or injuries resulting from accidents.

BL Motorcycles Ltd

Professional Workshop Manual - English Translation

Moving the rider's feet from the footrests reduces the rider's ability to control the motorcycle, and could lead to an accident.**WARNING** Keep both hands on the handgrips at all times when riding. Removing your hands from the handgrips reduces your ability to control the motorcycle, and could result in an accident.**WARNING**

Always open the throttle gradually to prevent front wheel lifting. Failure to observe this precaution may result in loss of control and an accident.**WARNING**

WHEN KEEPING FOR LONG PERIOD :

1. Supply the enough fuel in the fuel tank.
2. Do drain wholly the fuel in the carburetor.
3. Remove the battery from the motorcycle.**CAUTION**

7 WEAR A HELMET

RIDING APPAREL

INSPECTION BEFORE RIDING**FAMILIARIZE YOURSELF WITH THE MOTORCYCLE**

KNOW YOUR LIMITS

BE EXTRA SAFETY CONSCIOUS ON BAD WEATHER DAYS

Motorcycle safety equipment starts with a quality safety helmet. One of the most serious injuries that can happen is a head injury. **ALWAYS** wear a properly approved helmet. You should also wear suitable eye protection.**WARNING** Do not operate the ignition switch in the OFF position, the steering lock to lock or the engine stop switch in the position while driving at one's pleasure.**WARNING**

Loose fancy clothing can be uncomfortable and unsafe in terms of riding your motorcycle. Choose good quality motorcycle riding apparel in terms of riding your motorcycle.**WARNING**

Review thoroughly the instructions in the **INSPECTION BEFORE RIDING** section of this manual. Do not forget to perform an entire safety inspection to ensure the safety of the rider and its passenger.**WARNING** Your riding skill and mechanical knowledge from the foundation for safe riding practices. We suggest that you practice riding your motorcycle in a non-traffic situation until you are thoroughly familiar with your machine and its controls. Remember practice makes perfect.**WARNING**

Ride within the boundaries of your own skill at all times. Knowing these limits and staying within them will help you to avoid accidents.**WARNING**

Riding on bad weather days, especially wet ones, requires extra caution. Braking distances double on a rainy day. Stay off of the painted surface marks, manhole covers and greasy appearing areas as they can be especially slippery. Use extreme caution at railway crossings and on metal gratings and bridges. Whenever you have a doubt about road condition, slow down!**WARNING**
